Get Connected with KSU WiFi - Vista

Note: Windows Wireless Manager must be enabled.

1. Click on the Start button.

   ![Start Button](image1.png)

   Figure 1 - Start Button

2. Click on Control Panel.

   ![Control Panel](image2.png)

   Figure 2 - Control Panel

3. Click on Network and Sharing Center.
4. Click on **Setup a connection or network**.

5. Click on **Manually connect to a wireless network**.
6. Enter the following information:

   a. Network name: **KSU**
   b. Security Type: **WPA2-enterprise** (Select from drop-down list)
   c. Encryption type: **AES** (Select from drop-down list)
   d. Security Key/Passphrase: **Leave blank**
7. Click on **Next**.

8. Click on **Change connection settings**.

![Change Connection Settings](image1.png)

9. Click on the **Security** tab.

![Wireless Network Properties](image2.png)
10. Ensure that the “Choose a network authentication method” is set to Microsoft: Protected EAP (PEAP)

![Image of network properties window](image)

**Figure 9 - Security tab**

11. Click on the **Settings** button (see Figure 9).

The **Protected EAP Properties** window appears.

12. Uncheck **Validate server certificate**.
13. Click on the **Configure** button next to **Secured password (EAP-MSCHAP v2)** (see Figure 10).

14. Uncheck the **Automatically use my Windows logon name and password** option.
15. Click on OK on each open window until you return to the **Manually connect to a wireless network** window.

16. Click on **Connect to...**

![Manually connect to a wireless network](image)

**Figure 12 - Connect to...**

17. Select **KSU**.

![Manually connect to a wireless network](image)

**Figure 13 - KSU**
18. Click on **Connect** *(see Figure 13).*

A prompt pop-up appears from the taskbar: “**Additional information is required to connect to KSU**”.

![Figure 14 - Additional Log on Information](image)

19. Click on **Additional information is required to connect to KSU**.

The **Enter Credentials** screen appears.

![Figure 15 - Enter Credentials](image)

20. Enter your **NetID, NetID password**, and leave the logon domain field blank.

21. You are now connected to the KSU wireless network.
